

REMARKS

Reconsideration and allowance are respectfully requested in light of this response.

During telephone interviews on May 27 and 31, 2005 and June 1 and 3, 2005, the undersigned was notified that the following items are required to place this application in condition for issuance of a notice of allowance:

- (1) a Supplemental Reissue Declaration,
- (2) updated continuity data,
- (3) a Form PTO-1449 to correct a typographical error with respect to USPN 5,157,742, and
- (4) a listing of the claims.

A Supplemental Reissue Declaration and a Form PTO-1449 are attached. The continuity data is updated above, and a listing of the pending claims is set forth above.

Claim 2 contains the language "from peripheral pixels at positions corresponding to the motion vector MV1 and the motion vector MV2." The term "peripheral" is relative to the position of the motion vector. Thus, this language specifies that the "peripheral pixels" are pixels that are peripheral to the

positions of the first and second motion vectors, as is consistent with non-limiting Fig. 5 and the description thereof in the specification.

In light of the foregoing, a Notice of Allowance is respectfully solicited.

If any issues remain which may best be resolved through a telephone communication, the Examiner is requested to telephone the undersigned at the local Washington, D.C. telephone number listed below, in order to expedite consideration and allowance of this application.

Respectfully submitted,

James E. Ledbetter
